

REMARKS

The claims of the present application have been amended according to the amendments made in the parent application, Serial No. 497,813.

Favorable reconsideration of the patentability of these claims is requested for the reasons presented in the responses to the Office Actions in the parent application.

To insure that the file of the present application is complete, submitted herewith is a copy of the substitute declaration filed in the parent application on October 28, 1983. The supplemental declaration was filed to identify an earlier Finnish application that was omitted in the original declaration.

Also submitted herewith are copies of the Prior Art Statement and Supplemental Prior Art Statement filed in the parent application. Copies of the references cited in these Statements are not being submitted since copies were filed in the parent application. To insure a proper identification of the cited materials, in addition to submitting copies of the PTO-1449 forms that were filed with the Prior Art Statements, submitted herewith are copies of the PTO-1449 forms that accompanied the Office Action dated June 5, 1984.

Finally, a copy of the Declarations of Lauri Sakari Nieminen and Lauri Veikko Matti Kangas filed with the response on November 5, 1984, are also submitted herewith.
